LONG'S GARDENS
BOULDER, COLORADO

Greetings from

the

"Top of the World"

EVERETT
LONG

ONE OF LONG'S IRIS FIELDS

Growing vigorously in our fields and bursting with vitality are acres of modern-day iris available for your selection. Our mile-high climate and favorable soil conditions are "tailor-made" for growing outstandingly healthy rhizomes.

Biggest rhizomes in the world? No. We feature quality rather than quantity. Plants are given sufficient nutrient material and moisture to insure healthy, hardy rhizomes that give a high percentage of first-year bloom and good increase, but are not so over-grown they may not be hardy.

Glowing reports come in every season from customers pleased with the way "Top of the World" iris perform in all sections of the country. Particularly gratifying are these good reports from sections where severe winter conditions demand the most hardy rhizomes.

If you have never grown any of today's modern iris, a treat is in store for you. So much progress has been made in the last few years that today's iris far surpasses its earlier ancestors in size, color, branching and growing habits.

Look over our collections! By grouping iris we have in good supply we are able to offer outstanding values in our collections. There are selections to fit every purse. And don't overlook our money-saving group offers.

We ship postage prepaid. Every item listed in this catalogue is prepaid. Shipments start right after the Fourth of July, and continue through October. Iris do well when planted any time in this period. Some of our mid-western customers prefer to wait until September, thus avoiding the extremely hot, dry summer months. Unless specified otherwise, orders are shipped in same rotation as received. If you wish early shipment, please order as soon as possible. Tulips and other fall bulbs are shipped in September and October as soon as received from Holland.

Our low prices are made possible by cutting our overhead as much as possible. We have no credit department, so must ask that remittance in full accompany each order. Remit by personal check, money order or postal note. Do not ask to have iris sent C.O.D. Means red tape for us and greater cost for you. C.O.D. fees were increased by the postal department this year.

Rhizomes are guaranteed to arrive in healthy condition and to be true to name. A culture leaflet with many helpful hints is included with each order.

"Don't Delay; Send Today" for an assortment of these beautiful iris. You'll be delighted!

THE 100 BEST IRIS FOR 1949

Long's "TOP OF THE WORLD" IRIS

TERMS USED IN DESCRIPTIONS

Amoena: White or tinted white standards with colored falls.
Beard: Narrow band of short, hair-like growth which comes from the haft one-third to one-half way down the falls.
Bi-color: Light or medium standards and deeper contrasting falls.
Blend: Combination of yellow and one or more other colors.
Dykes Medal: Highest award an iris can win. Given to one outstanding iris each year.
Falls: The three lower petals of the iris.
Plicata: A light or white flower flushed, lined or stippled with a darker shade, particularly on the margins.
Self: The same shade of color throughout the whole flower.
Standards: The three upstanding petals.
Style Arm: The claw-shaped part in the center of the blossom.
Variegata: Yellow or near yellow standards with deeper falls which may be either veined or solid tones of brown or purple.

ACE OF SPADES (Salbach, 1941) 50c
 Rich dark purple. Falls are violet black; standards a somewhat lighter color value. Smooth finish.
